

Dear Business Partners

The last 40 years has seen huge changes in the international freight forwarding industry and these changes and growth in the industry are exposing operators of all sizes to more risks. The 'Modern Forwarder' provides one stop shop for cargo transport contracting as either Principal or Agent and moves cargo door to door. At the same time, due to more litigations, legal costs can and do arise anywhere cargo can be moved to or from, with both settlement costs and legal expenses increasing. In such a specialized market Tenet is able to provide comprehensive policies tailored to fit the risks of the individual company through our new Product Move@360° which can be designed to tailor to the needs and demands of the clients.

Operators which may be covered:

- Air Cargo Freight Forwarder
- Ocean Cargo Freight Forwarder
- Logistic and Distribution Companies
- Non Vessel Operating Common Carrier / Multi-modal Transport Operator
- Road Haulier
- Warehouseman

Move@360°

The scope of cover provided can include:

- Liability for loss or damage to cargo
- Errors and omissions, including Fines and Penalties
- Cover for Duty
- General Average and Salvage
- On Forwarding Costs
- Consequential Losses
- Warehousing Operations
- Third Party Liabilities
- Pollution
- Loss or damage to own or third party equipment
- Legal costs and defence expenses

You may download a copy of the proposal form from our I-Channel now and submit same for our further underwriting. For product enquiry, please contact our Business Insurance Division (BID).

Yours truly,
Florence Chew
